PATENT REGISTERED

Mobile automatic grape feeder

Advantages

- The feeder can be equipped with an articulated arm fitted with semi-automatic grippers allowing loading simultaneously two boxes on the conveyor belt
- Carries the boxes from the floor to the press
- Features an independant console and can be extended to presses from other manufacturers
- Easy to move and with its compact footprint, it allows feeding several presses successively

Coquard Patent

- **More safety**
- **Reduces painfulness of work**
- **Labor costs reduced**

Adaptability to all automatic pneumatic presses.
